BIORHYTHM CHARACTER ANALYSIS AND COMPATIBILITY is used in this newsletter. The news media says what happened, THE TRUTH tells why. Each day has its own set of biorhythm numbers. They tell our true character just as astrology does. This is much easier. To do a chart that shows the ups, downs and critical days, another set of numbers would need to be added to the personal numbers. The personal numbers tell what we are like in our heart.

TARNOWER MURDER

On 3-10-80, Scarsdale Diet Book doctor, Herman (Hy) Tarnower was shot & killed by the headmistress of an all-girl school, Jean Harris. Jean was convicted of 2nd degree murder (3-20-81) & sentenced to 15 years to life.

Jean's lawyer is going for another trial saying she was in such a state at the trial that she could not cooperate with her lawyers. She did not defend herself.

In an interview with David Hartman (Good Morning America, 4-22-83) Jean said she had been given "speed" by Hy for years even tho it was against the law. She said she does not know why he gave the drug to her.

PERSONAL BIORHYTHM NUMBERS

	Physical	Emotional	Mental
Hy Tarnower 3-18-10	21 (83%)	18 (29%)	21 (27%)
Jean Harris 4-27-23	17 (48%)	18 (29%)	18 (9%)

Compatibility 4 (65%) 0 (100%) 3 (82%)

Jean is excellent with the details of something (9% mental) so she would have known why she took the drug. Hy was attracted to trouble (27% mental). The mental percentage is not the intelligence. He would have been drawn to drugs, & was not afraid to get involved with them (83% confidence). She would have gone along with him because she lacks confidence (48% physical). Jean said Hy was extremely confident in himself. She said she feels inadequate & bringing that up made her cry.

Both are natural children (#18 emotional). They need more attention than the average & will do anything to get it. They are born actors. They are very self-centered. They would solve problems the way a child would.

Hy was so self-centered he did not know Jean's birthdate until they had "been going together for 8 years." Jean said about Hy "Selfish people are usually the ones who are loved the most because they have the courage to do what they want & people admire them for it."

Jean said she does not know about herself & does not want to explore herself. This means she wants to remain a child. She used to go to Hy with all her problems at school. Hy Tarnower was a cold, unsmiling, self-righteous person interested only in his own opinion. His 27% mental would make him a know-it-all. Jean is one who would be sure she is right all the time (9% mental). She needs to give herself permission to let go of what is hurting her. She lives in the here and now.

Jean & Hy went together for 14 years. 7 of those years another woman was also in his life. Both women knew of the other. Hy needed attention and he got it. He was too sexy for Jean (Hy 83% - Jean 48% physical).

Jean said she does not understand why the people got interested in this trial. "I was just a school teacher & Hy was just a country doctor." She seems to have forgotten that he wrote a best selling book.

Jean said she went to Hy's home to kill herself. She said she tried to shoot herself in the head. Hy tried to stop her & got shot in the hand. He went into the washroom to wash off the blood & came back into the bedroom. If he felt she was going to murder him, he could have stayed in the bathroom & lock the door. He came back into the bedroom instead.

This "suicide attempt" was probably a bid for attention. Both are the type to use jealousy to get attention.

They were more compatible than the average: 65% physically, 100% emotionally & 82% mentally. They were overall 82% alike. 60% and up is good.

Jean has all low percentages & she is a natural child. This means she can con people into & out of things for her benefit. There would be only a

SUGARLESS GUM has 6 calories where the regular kind has 8.

Doctors are taught to say to old patients "What can you expect at your age?" They will treat a younger person with the same symptoms. Dr. Robert Mendelsohn, The Medical Heretic, recommends the old people tell the doctors they are 35 & stick with that.

The shoot out at the OK Corral lasted only 30 seconds.

When Health Insurance came out it encouraged the medical people to charge more. The insurance companies would not pay for all of it. That left the public worse off. They had to have insurance & pay too. Makes one think the medical & insurance businesses might be in collusion.

Instead of freeing women from the tyranny of fashion, the men are now getting suckered into it.

NUMEROLOGY - The first vowel in your name has an affect on your total personality.

Positive I as in Irene, Ida, Simon or Michael - This can cause you to achieve greatness in any chosen area for the good of man. Equally true is the powerful force connected with evil & cruelty that selfishness fosters. Keep your activities positive.

Receptive I as in Vicky, Gina or Jim - You can be easily bored, selfishly indifferent with your emotions. &

out of control with your reactions unless logical judgment is developed. Dual I as in Diana, Viola or Lionel - These are double in nature. One time positive, one time negative. If the positive side is maintained, much directed force can be most beneficial to all. Great strength is achieved.

HERVE VILLECHAIZE

The dwarf actor who played "Tattoo" on "Fantasy Island" is now out of the show. He made big demands for money so they let him go. Born 4-23-43

Personal biorhythm numbers

Physical	7 (39%)
Emotional	25 (79%)
Mental	10 (39%)

He does not need a lot of material things (39% physical). He probably made those demands because he feels inferior & got to acting & talking big to cover up.

Herve is a pleaser (#25 emotional). He will let people use him because he has trouble saying no & then gets to feel used after awhile.

Herve is involved with guns. That is what a lot of men do who feel inadequate.

Herve is a martyr (39% mental). He is attracted to the unusual & to trouble. He loves to complain & to say and do things to shock. He said he was treated like a "monkey" on the set of Fantasy Island. That is most likely only in his mind. Herve is naturally paranoid (high emotional & low mental percentage. The mental percentage is NOT the intelligence). He would feel people are out to get him even when they are not. Being a martyr, he is likely to trust those who really are out to get him. They would bring him the trouble he seems to seek.

Herve has a typical Cinderella personality. All his life he will seek

romance & when he does find a true love & the happiness gets too boring he will do something to liven things up because too much happiness or routine depress him.

PHONE SEX

A man who likes to hear & talk dirty on the phone can now pay to get this service with his Visa card. At the moment there are 60 of these companies in the United States. The man might pay \$30 for this service. The female who does the talking, which might take 20-30 minutes, might get paid about \$8. This is a good way for women to earn money from their homes. More than 1/2 of them are married.

Here is a character analysis of one of these telephone titillators: Personal Biorhythm Numbers
Female born 9-30-34
Physical 6 (48%)
Emotional 16 (14%)
Mental 2 (88%)

She is a natural child who needs attention (#16 emotional). She is a born actress who lives in a fantasy world. She needs to lead or control (88% mental). This job suits her personality perfectly. She lacks confidence but covers it up with bullying.

This particular woman is extremely obese. She can hardly walk. She wanted to get the operation that would make her lose weight but the doctors would not give it to her because she has diabetes.

For you who are reading this & feel they should shut down businesses like this, keep this in mind. This woman can not hold a normal job. She could not get to a place of business so she would have to be on welfare.

GALILEO AND COPERNICUS

In the 17th century the Catholic church said the sun revolved around the earth. Copernicus, the founder of modern astronomy, said it was the other way around & Galileo agreed with this. Galileo was questioned by the Inquisition & after a long trial he recanted. Because he did, the church sentenced him to be confined to his home the rest of his life instead of in a prison.

Copernicus printed his works just before he died, 21 years before Galileo was born.

		Personal Biorhythm Numbers		
		Physical	Emotional	Mental
Galileo	2-25-1564NS	7 (39%)	20 (43%)	25 (51%)
Copernicus	2-28-1473NS	8 (30%)	20 (43%)	30 (82%)
Compatibility		1 (91%)	0 (100%)	5 (70%)

If these men had known one another they would have been good friends. They are overall 87% alike.

They were natural children who needed more attention than the average (#20 emotional). They were born actors who lived in a fantasy world. They were able to sit around & do this sort of research because they had low physicals (39% and 30%).

Copernicus needed to be in control (82% mental). Galileo needed to have people listen to him (51% mental). He would have enjoyed lecturing. He was able to tell the Inquisition he was wrong even tho he knew he was not, because he only had a need to be heard, not right.

Galileo spent the rest of his life writing.

REINCARNATION

In the June 1983 issue of Fate Magazine was a story 'His Brother's Keeper'. The writer of the story, Ted Smiley, tells how John, his dead brother's voice saved his life a number of times. In his dream his dead brother said "I'm coming back, in part." 280 days later Teds son was born.

We are told we are born to learn lessons. I am interested in seeing how much a person changes from one life to another.

		Physical	Emotional	Mental
John	2-10-13	19 (65%)	22 (57%)	17 (3%)
Teds son	11-18-44	7 (39%)	10 (29%)	29 (76%)
Compatibility		12 (4%)	12 (14%)	12 (27%)

John got polio in his left leg when he was 10. John has a 65% physical. This percentage comes to one who will be restricted in the physical (sex) life in some way. Many with this percentage have strict parents and stifle their children that way. A health defect could also restrict the sexual life because the opposite sex could reject them. This physical defect would have made him seem shy.

John was a pleaser (22% emotional). He needed to be liked. He also was a loner & possessive. John was excellent with the details of something (3% mental). He could see the details but not the overall picture. John would have felt he was right ALL the time.

John was killed in a plane crash on 5-30-34 when he was 21 years old.

If Teds son is the reincarnation of John, he has changed his personality completely. He might have learned what he needed in the previous life & has new lessons to learn this time around as Teds son. These two men are only 15% compatible. They have nothing in common now.

Teds son lacks confidence but tries to cover it up (39% physical). He is not emotional (29%) but John was (57%). He is able to see the overall picture (76% mental) but John could not (3% mental). He could overreact when he feels he is losing control & could bully. He needs to lead or control where John did not want to be controlled by anyone. His Polio damaged left leg restricted him & that was one reason he got involved with flying. That way he felt less restricted by his leg & less controlled.

If you want to read the story on this, buy the June 1983 issue of FATE Magazine. If you do not now subscribe to FATE do so. I find it the best magazine of its kind. It is a monthly. \$12 a year U.S. Send to FATE MAGAZINE, 500 Hyacinth Pl., Highland Park IL 60035.

MARTYRS LOVE TO COMPLAIN

Here is an example: The mother is a martyr (15% thru 46% mental). She is raising her son alone. He gets on her nerves so much he can't make a move without her hollering at him. She complains & complains about him.

She sent him to live with relatives for the summer. She complains & complains because she is lonely without him. She should be happy that he is gone for awhile. Her friends can't win. She is going to complain no matter what is happening.

It is natural for martyrs to complain so they need to learn to keep most of it to themselves if they don't want to lose their friends. Mentioning something once or twice is plenty but they need to learn not to beat a negative subject to death.

Barbra Streisand who is also a martyr said it perfectly "Me happy? If I were happy I'd be miserable." Martyrs seek happiness all their lives but cannot take it for long because it get too boring for them.

ACCIDENT?

A year or so ago I received a phone call from a woman. Her son had been drinking heavily & had been killed in an auto accident.

The mother had found a compatibility reading I had done with her

son & his previous girlfriend.

The son was quite fearless (high physical) & was a martyr (15% to 46% mental). He was attracted to trouble. I had warned him about drinking & driving. The combination killed him.

The mother gave me her birthdate for my research. After I got off the phone I looked up his records & found I had done one with him & his fiance. The fiance & the mother were very much alike & the son was not compatible with his mother. He could not face living with another woman who was like his mother. This made me feel the son really did not want to marry the fiance & dyin

Numbers

Hoffa had all low percentages. This made him able to earn his way in life by talking. He has his emotional number (18) in the natural child range. This means he would do anything for attention. He could talk people into & out of things for his benefit, not theirs. In other words, he was a con-man. As a natural child, he would solve problems the way a child would. This child had more men under him than were in the U.S. Army.
